Ridenour: petition successful, they met the signature requirement and 2 parking studies done so far have shown that 75% of the daytime parking is from external sources. Craig Zander of Turner Construction was approached with the residential concerns of entire blocks being consumed by his worker's vehicles and their conduct. Turner is not willing to direct employees to park elsewhere, but will address unlawful behavior. Suggestion: call police for unlawful behavior and report license plates to Turner of those breaking law (open container, etc). Jeff Smith created an online form to input incidents with medical center construction workers on shortnorthcivic.org (consider using form). SNCA paid for fliers distributed to about 120 cars last week sharing the concerns of the residents. Timeline: OSU medical center work continues through the fall of 2014.

Harrison Park was worked on last month and is in pretty good shape, but there is LOTS of poison ivy along the banks and we need to work on removal. Harrison West Jazz Stage starts Sunday, September 8. Wheeler Park: Molly met with the contractor, fencing is ordered should take 4-6 weeks for delivery. October 1 is the expected completion date then they will close ½ the park at a time to let the grass regrow. UIRF: no update on bike path except it is moving forward.

End of July did a lot of walk chalking with links to the facebook page and saw an increase in likes on the page. Homeless camps in the Short North: met with Maryhaven. They are locating and inventorying camps in September. Having monthly meetings to discuss priorities and give camps notice to vacate around construction projects. Outreach and placement is the end goal. September 7 Good Neighbor Picnic to be held in Goodale Park. Friends of Goodale Park is seeking a Harrison West representative if anyone is interested and holding a clean up on 9/7 if anyone wants to get a group together to help.

RATS: noticeable increase in rodent activity. Recent article in Dispatch noted the cessation of the City program for rodent control and hypothesized that this is the outcome. Other factors: lots of construction across the river could be disturbing former nesting grounds. Gretchen James to call someone.
