

Save the Date

The Building Doctor is coming to Columbus!

Do you own an older home or building built before 1955?

Would you like to know how you can preserve the features that make it appealing, while solving some of the most common old-building problems?

At the free Building Doctor Clinic, our old-building experts will teach you how to make informed decisions about:

- Maintenance and repairs
- Masonry problems
- New additions
- Roofs and drainage
- Wood and painting

Register now to attend our free seminar! Call 800.499.2470 or visit building-doctor.org today.
