

WOOD WINDOW WORKSHOP

The desire to make our homes more energy efficient is increasingly important to our comfort, to our concerns about sustainability, and to our budgets. Windows – old versus new – frequently heads the list of considerations.

Join us for an informative window workshop. We'll discuss the merits of preserving historic wood windows, comparisons with replacement windows, window anatomy, and energy saving strategies. Following the discussion, participants will get hands-on window repair experience at an actual job site led by window expert Mark Blowers of Excalibur Restoration.

Date/Time:

Saturday, April 8, 9:00 a.m. – Noon.

Gather at:

**Jefferson Center Carriage House
Located behind 57 Jefferson Ave.
Columbus, OH 43215**

Cost:

**Workshop fee*: \$10.00 for Columbus Landmarks members
 \$20.00 for non-members**

Class presentation and discussion will begin at the Carriage House. Coffee, juice & donuts will be served. Participants will then proceed to the jobsite at 100 Jefferson Ave. for the hands-on workshop. Please wear comfortable work clothes and shoes with closed toes – no sandals.

*Net workshop proceeds will benefit The Jefferson Avenue Center which owns and operates historic and newly developed properties that support many nonprofit organizations, including Columbus Landmarks.
