

DRAFT

General Comments

- Thursday evening is not a "typical weekday" evening
- Clear signage would be really helpful
- People don't know how to parallel park
- Speeding is a problem
- No problem finding a space daytime on weekdays, but triple threat during evening hours (6-10pm) with more customers.
- Area Commissions are part of problem:
 - * why are parking variances granted
 - * Commission meetings are not held in neighborhood
 - * Communication is needed
- Better marking signs for "No Parking": un-deserved tickets result from improper marking/signs (King <-> 5th)
- Too much parking on 2nd and High Street, residents can't park.
- Concerned about over-development
- Better lighting opportunity in alleyway
- Generally some safety concerns
- Should be guest pass outlet in neighborhood at least periodically
- Clarity is needed for development community what are the city's priorities and requirements
- Circulator should extend to 2nd & 3rd Street

Legend

- Parking
- Pedestrian
- Other
