Open Forum: Eric, the tree in the tree lawn in front of his house is dying. Question about how to get it removed and replaced. Bob, it's a year process. The city comes to cut it down, then grinds the stump six months later. You then have to submit a separate request for the tree replacement. Bob recommended city forester office to contact.

David, I would like to consider changes to policies on what development proposals are considered complex. By having two meetings I fear we are overshadowing the meeting. Suggested certain changes to the policy. Brenn, streamlining the process is desirable, but we should be cautious to not reduce our review process to the eliminate our viability. Zak, we should be more streamlined in the presentation of the projects, which would allow for more time.

Tim, new 5G poll being installed in the neighborhood, Harrison and Hubbard.

Discussion of communication outlets. Michael, discussion of pet safety.
