HARRISON WEST LUMINARY SET FOR DECEMBER 8

The Harrison West neighborhood will be participating in a luminary holiday celebration on December 8. It is scheduled to begin around 2:30 p.m. at the First Brethren Church and conclude with caroling and refreshments. We will be lighting Third Avenue, the Harrison West Park, and the Vermont Place circle as a part of this event. Anyone who is interested in participating contact Chris Hershberger at 299 - 3148 for further information.

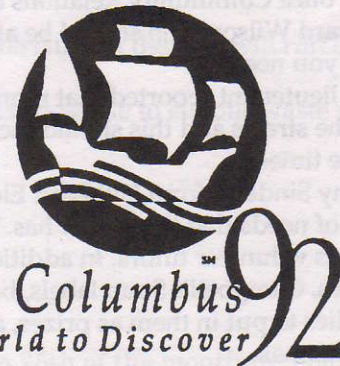

We hope to see you there as we start what we hope will be an annual event for our neighborhood.

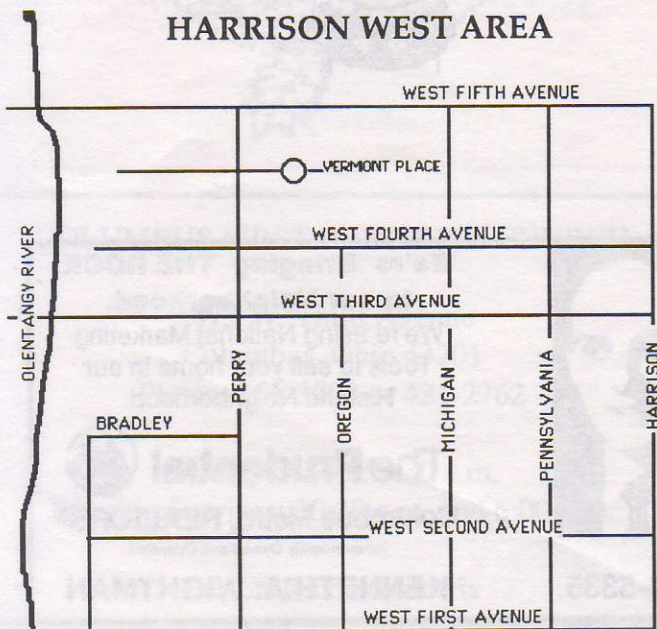

Best Wishes
for a
Merry Christmas

Harrison West Society Meeting

See you there...

Minutes of the Harrison West Society, November 14, 1991 Meeting

The meeting was called to order at 7:00 p.m. with Glenn Cook, president, presiding. The minutes of the previous meeting were approved as

published in the last Harrison West News.

No treasurer's report was given.

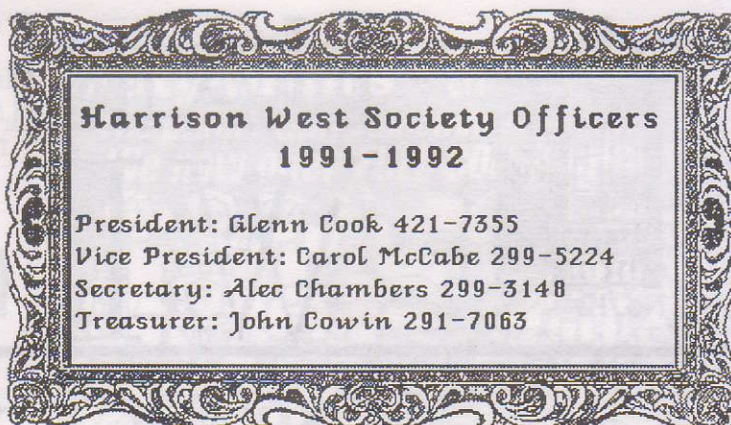

Arrangements for the lighting of luminaries were discussed. The luminaries will be lit on the evening of the 8th of December. Things will start at the First Brethren Church at 2:30 p.m. that day. The publication of the News will be advanced a week to help get the information out. Volunteers have been found to take care of Vermont Place.

Lt. Robinson of the Columbus Police, who is our new zone lieutenant, was present to listen to our concerns and to discuss public safety. There was some concern about a spate of burglaries in the area. These have been committed by a black man approx. 5' 8", 150 lbs. and neatly dressed. Residents are urged to keep an eye out for this man and to pass any information along to the police and to cooperate with their neighbors. A persistent problem with breaking car windows and thefts from cars was also discussed. Despite this, the lieutenant reported that there has been no significant increase in crime in the area and that a number of cases had been cleared up by arrests for other crimes, usually drug - related, in near - by areas. Keeping an eye open and cooperation with your neighbors were encouraged to improve safety and to help the police, even without the preparation of a formal block watch.

If you are concerned with the crime rates, you can contact the Police Community Relations office and talk to Officer Howard Wilson who should be able to get you the information you need.

The lieutenant reported that more police should soon be on the streets and this should increase coverage and response times.

Cathy Sindelar from Hubbard Elementary presented a list of needs that the school has. The most important of these is volunteer tutors. In addition, they also need Big Bear tapes, Campbell's Soup labels, book bags and school supplies to put in them as prizes, and food donations for Christmas.

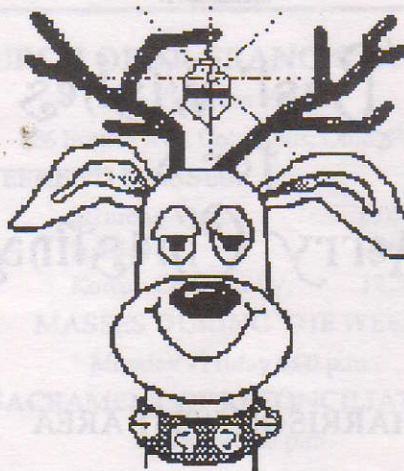

The meeting was informed that the Fire Department will be at the December meeting to discuss Christmas fire safety and that the appreciation luncheon for the Columbus Clean Community Campaign would be held on November 20th at 11:30. Tickets were \$15.00.

There being no further business, the meeting was adjourned at 8:40 p.m.

Respectfully submitted,

Alec Chambers, Secretary

HUBBARD AVENUE ELEMNTARY NEEDS YOUR HELP

The Hubbard Avenue Elementary School needs our help to aid and assist the students.

If you are in a position to assist them in any of these areas please contact the school for further information.

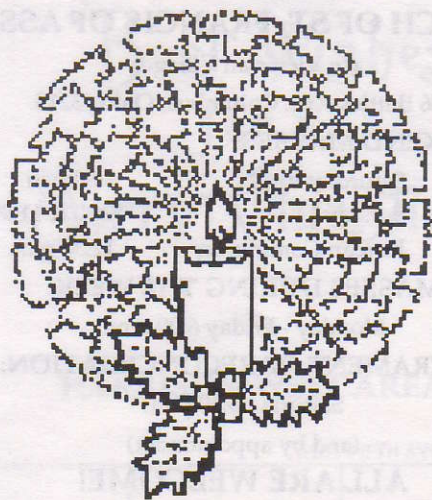

They need Big Bear cash register receipts and Campbell's Soup Can Labels.

The school would like to get knapsacks and book bags to use as awards for special accomplishments by the students. Also, they need material for in the bookbags, such as pencils, pens notebooks, etc.

Food items for those less fortunate than others, especially during the holidays are being sought.

The one thing that has been said that they need the most are individuals who are willing to donate some of their time to act as tutors for the students. If you are in a position to assist the school by any of these means please contact the school at 365 - 5571.

WHY RECYCLE ?

Recycling saves energy, thus reducing acid rain, global warming and air pollution.

Recycling aluminum uses 95 % less energy than producing aluminum products from raw materials.

Recycling paper uses 60 % less energy than manufacturing paper from virgin timber.

Recycling a glass jar saves enough energy to light a 100 - watt light bulb for four hours.

Recycling conserves valuable natural resources.

75,000 trees are used for the Sunday edition of the New York Times each week, yet only 30 % of newspapers are recycled in the United States.

Recycling metals minimizes the need for mining new minerals and decreases damage to wilderness

Recycling cuts down on landfill

The average American throws away four pounds of garbage per day.

By 1994, half the cities in the U.S. will run out of landfill space.

By recycling it is possible to cut our waste stream by 80 %.
