Don't forget...

Harrison West Society Meeting
Thursday, January 9, 1992
7:00 p.m.
Godman Guild, 321 W. Second Avenue

See you there...

Minutes of the Harrison West Society, December 12, 1991 Meeting

The meeting was called to order at 7:00 p.m. with Glenn Cook, president, presiding. The minutes of the previous meeting were approved as

published in the last Harrison West News.

John Cowin, treasurer, reported that the Society had a balance of \$402.55. Motions to pay bills of \$223.60 to Insty - Prints for printing of the News and \$19.40 for postage were passed. Checks to the value of \$275.00 were received.

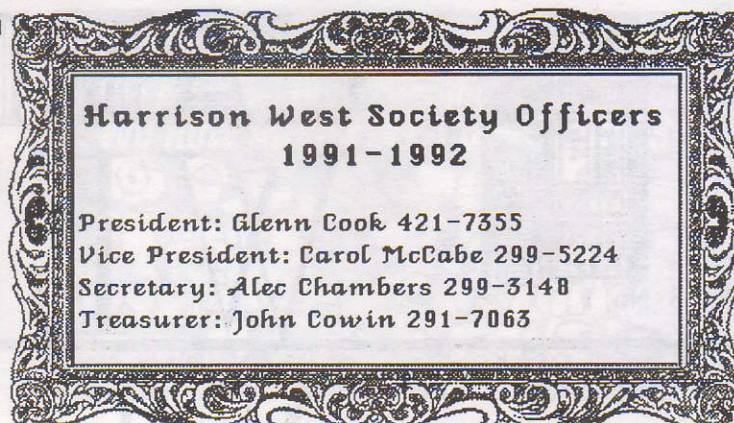

The Society expressed its pleasure at the response to the luminary lighting of December 8th and expressed its thanks to those who helped and to those who gave financial support: Chris Hershberger and Alec Chambers, Moretti's, the Victorian Village Society, and Zeno's.

Glenn Cook reported that the Society had received a certificate of recognition at the luncheon on November 20th for its performance in the Columbus Clean Community Campaign.

A motion for the Society to make a gift of \$25.00 to Godman Guild in recognition of its support was approved.

Chief Siemer of the Columbus Division of Fire was present to discuss fire safety. The discussion was prefaced with a fascinating and frightening movie that showed how a discarded cigarette butt could turn a room into an inferno in a few minutes. The Chief encouraged the use of smoke detectors and pointed out that when a fire had taken hold the most important things to do were to clear the building and call the fire department to fight the fire.

Officer David Fellingner of the Columbus Police Department came to discuss crime in the area. He first told us that there is a shortage of jail space and urged us to support plans for the city to get its own jail space. The most significant problem in the area is theft from cars (especially radar detectors). People are encouraged not to leave anything of value in cars in plain sight. We were also encouraged to file a report with a patrol officer because this makes the information more readily available to them than the practice of phone reporting. The officer also explained that manning levels had improved and that the planned reorganization of the force should improve response times.

Harrison West Society Officers 1991-1992

President: Glenn Cook 421-7355
Vice President: Carol McCabe 299-5224
Secretary: Alec Chambers 299-3148
Treasurer: John Cowin 291-7063

An officer from the burglary squad supported several of these points and together they encouraged us to look out for one another. It was pointed out that burglars are discouraged by anything that will make their obvious (e.g. well lit yards) or that will slow them down (e.g. security doors).

Jim Schmelzer of the Victorian Village Society came to discuss the 1992 Tour of Homes. Two houses in Harrison West will be on the tour this year and there is an intention to mark areas in addition to Victorian Village on the tour map and to update the introduction in the tour guide to include some information on areas such as Harrison West and Dennison Place. A call for volunteers to help with the tour was made. Jim is also responsible for starting the new Community events calendar that some of you may have seen.

Guest speakers for January (Ameriflora) and February (Battelle) were confirmed.

There being no further business, the meeting was adjourned at 8:15 p.m.

Respectfully submitted,

Alec Chambers, Secretary

WHY CONSERVE WATER ?

Conserving water saves energy and money and preserves fresh water habitat. Much energy goes into transporting water to your residence, and then more is used to heat water for bathroom and kitchen uses. By conserving water it is possible to prevent some of the pollution caused by excessive energy use, such as global warming and acid rain.

Many of the problems relating to water use can be attributed to development in areas where there is an insufficient water supply. For example, although the Southwest has only six percent of the country's fresh water, 31 percent of our water is used to meet the demands of heavy farming and urbanization in this area. As a result, increasing amounts of water are diverted from the Colorado River, and now only a limited amount of water - heavy with pesticides and fertilizers - reaches the sea.

Much of the water we consume comes from underground reserves. If this water is used faster than it is replenished, it can cause land to sink, a process called subsidence. In Florida a few years ago, houses and cars were swallowed by sink holes. Once subsidence occurs, the underground aquifers where water was stored cannot be reformed. According to the U.S. Geological Survey, 35 states are pumping ground water faster than it is being replenished.

MINI - SUBSCRIPTIONS AVAILABLE

The Contemporary American Theatre Company is currently offering "Mini - Subscriptions" for its remaining four productions of the 1991 - 92 season. Prices for the package range from \$33 to \$63, with student/senior discounts available for only \$24 for some days. Call (614) 461 - 0010 to purchase a Mini - Subscription.

There are four plays remaining in CATCO's season.

Christopher Durang's *LAUGHING WILD* chronicles the zany struggle of a man and a woman as they battle themselves and each other in a comically desperate attempt to cope with stress and isolation in the modern world. Contains strong language.

WINGS by Arthur Kopit is an uplifting and often humorous story of courage and discovery. This unique play takes the audience into the strange, terrifying and shattered world of Emily Stilson, a stroke victim. Plunged into her confused mind, the audience journeys with her as she rediscovers reality.

Alan Ayckbourn's *RELATIVELY SPEAKING* is a hilarious tangle of mistaken identities and passionate secrets as Ginny tries to end her affair with her former employer. The problem is that Ginny's fiance, Greg, thinks the former employer and his wife are Ginny's parents.

Finishing the season is CATCO's Second Annual *SHORTS FESTIVAL*. These mini - plays are being developed now in CATCO's Playwright's Workshop. All the plays revolve around the theme of "family."
